Air Filter Oil

Foam Airbox Filter Lubricant

AMSOIL Air Filter Oil (AFO) is designed to help riders stay in front of the pack. It quickly penetrates foam airbox filters to help prevent dirt and water contamination and provide maximum clean airflow to the engine. Its tacky formula provides superior adhesion that prevents fluid pooling in the airbox and traps dirt, sand and grit to provide long-lasting engine protection and peak performance.

Performance Features

- Tacky formula stays in place to trap contaminants.
- Resists dirt and water to maintain airflow.
- Quick penetration to prevent pooling.

APPLICATIONS

- Foam airbox filters

DIRECTIONS

1. Start with a clean, dry filter.
2. Shake can vigorously. Hold the spray can away from the filter.
3. Spray evenly while gently kneading filter surfaces to ensure complete saturation.
4. Install filter per owner's manual instructions.

AMSOIL PRODUCT AVAILABILITY
