### Section 4 - First Aid Measures

**Inhalation:** Remove from further exposure. For those providing assistance, avoid exposure to yourself. Use adequate respiratory protection. If respiratory irritation, dizziness, nausea, or unconsciousness occurs, seek immediate medical assistance. If breathing has stopped, a trained individual should attempt to resuscitate while getting immediate medical aid.

**Eye Contact:** Flush eyes with water for at least 15 minutes. If irritation occurs, seek medical attention.

**Skin Contact:** Prolonged or repeated contact may cause irritation. Good hygienic practices should be observed at all times. Wash exposed skin with soap and warm water.

**Ingestion:** If ingested, seek medical attention. Do not induce vomiting unless directed by a medical personnel.

### Section 5 - Fire Fighting Measures

**Flash Point:** 221 C (430 F)

**Extinguishing Media:** Carbon Dioxide (CO<sub>2</sub>), dry chemical or foam. Do not use a waterjet. Water can be used to cool and protect exposed material.

**Unusual Fire Hazards:** Pressurized mists may form a flammable mixture.

**Products of Combustion:** Fumes, smoke, CO<sub>x</sub>, SO<sub>x</sub>, NO<sub>x</sub>, when combusted.

**Fire Fighting Instructions:** Evacuate area. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply. Fire fighters should use standard protective equipment and in enclosed spaces, self-contained breathing apparatus. Use water supply to cool fire exposed surfaces and to protect personnel.

### Section 6 - Accidental Release Measures

**Notification Procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. US regulations require reporting releases of this material (which exceed the applicable reportable quantity) into the environment, or oil spills which could reach any waterway (including intermittent dry creeks). The National Response Center can be reached at 1-800-424-8802.

**Spill Management:** Shut off source of leak if it is safe to do so. Dike and contain spill.

**Small Spills:** While wearing suitable personal protective equipment (PPE), absorb spill with clay, sand or other suitable material. Place in a non-leaking container and seal tightly for proper disposal.

**Large Spills:** Ventilate the contaminated area. Wearing suitable PPE, pump into salvage vessels. Dispose of collected material according to regulations.

### Section 7 - Handling and Storage

**Handling:** Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists of this product. Do not take internally. Use this product with adequate ventilation. Launder work clothes frequently.

**Storage:** Keep properly labeled container tightly closed, and in a cool, well-ventilated place away from incompatible materials. Store away from heat, sparks and other ignition sources. Containers, even those have been emptied, can contain combustible vapors. Do not pressurize, cut, weld, drill or grind on or near containers. Do not reuse empty containers.

### Section 8 - Exposure Controls / Personal Protection
